

13th INTERNATIONAL SYMPOSIUM ON CONCRETE ROADS

“Concrete Connects”

CALL FOR ABSTRACT

The German "InformationsZentrum Beton", together with EUPAVE and their partners are pleased to invite you to take part in the promising 13th International Symposium on Concrete Roads from 19 to 22 June 2018 in Berlin, Germany.

Anyone interested is invited to submit an abstract - around 300 words, written in English - related to the themes listed below.

Themes:

- Theme 1: High axle-load areas
- Theme 2: Highways and truck parking areas
- Theme 3: Urban and rural roads, intersections and roundabouts
- Theme 4: Materials – Concrete for various applications
- Theme 5: Precast systems
- Theme 6: Maintenance strategies, assessment of structural capacity of concrete pavements
- Theme 7: Surface characteristics and modern methods of execution
- Theme 8: General reports on application of concrete pavements
- Theme 9: Quality control and testing
- Theme 10: Big Data – concepts to optimize the use of entire infrastructure networks

The participant has to fill in the "[abstract submission form](#)" and return it to info@eupave.eu by **30 April 2017 at the latest**.

You can find the SAVE THE DATE [here](#) and the Symposium website will soon be available.

We are looking forward to receiving your abstract and to meeting you in Berlin in June 2018!
